SAVE THE BABIES

The Wake-Up Call

“IT’S TIME TO SAVE OUR MOST
VULNERABLE—AND OUR FUTURE.”

SAVE THE BABIES

THE MISSION

WHY WE'RE HERE

“Save the Babies” is a nationwide awareness campaign and Documentary on the life-saving benefits of infant chiropractic care and the right to be informed and take proactive health choices. We're uniting leading voices in wellness, science, and advocacy to educate, empower, and shift the paradigm.

SAVE THE BABIES

THE PROBLEM

What's Really at Risk?

- Rising chronic health issues in children.
- Lack of awareness around non-invasive, preventative care like infant adjusting.
- Misinformation, medical gatekeeping, and limited education for parents.
- Health systems that often ignore root causes and early interventions.

SAVE THE BABIES

THE SOLUTION

A Platform for Truth, Education, and Action

Through a series of conferences held across the U.S., we will:

- Educate families on life-saving chiropractic care for infants.
- Feature renowned experts exposing hidden systemic issues.
- Equip attendees with tools to self-advocate for their families.
- Build a groundswell of informed voices demanding better care.

SAVE THE BABIES

THE IMPACT

Real Change Starts with Awareness

- Educating parents on the benefits of infant adjustment
- Educating parents on Healthy Birthing options
- Testimonials or stories from parents after adjustments

Each event will awaken hundreds of families, empower practitioners, and ripple through communities—reshaping how we care for our future generations.

SAVE THE BABIES

OUR GOAL

The Funding We Need to Save More Lives

We're raising \$50,000 to fund:

- 10+ national conferences
- Travel and accommodations for expert speakers
- Media outreach and professional documentation
- Marketing to reach underserved and overlooked communities
